PROJECTS

A responsive personal [portfolio website](#) built with React.js and Tailwind CSS, showcasing skills, projects, and educational background. This serves as a central hub for my professional online presence.

The [Food Web Project](#) is a responsive front-end web application built with HTML, CSS, and JavaScript, showcasing a clean, user-friendly interface for a food-based website. It includes sections like Home, Menu, and Contact, offering smooth navigation and appealing design. The project highlights front-end development skills with a focus on UI and user experience.
